

# **Election Process Resolution**

## **Paper Poll Lists**

**Whereas** paper poll lists, completed by the election judges or clerks as voters are checked in to vote, are currently not required when electronic poll books are in use;

**Whereas** these lists are in fact a necessary paper backup for the electronic poll books, assisting in maintaining a proper check on the total of votes vs. voters;

**Whereas** some Texas counties still successfully utilize paper polls lists alongside electronic poll books;

**Be it Resolved** that an addition should be made to RPT Platform Plank 242 stating, "Every voting location must maintain a paper poll list, Section 63.003d must be removed from the Election Code."
