### Voting:

- Dress appropriately. Avoid any clothing that can be construed as political. Anything that depicts a candidate (even if that candidate is not on the ballot), a message for or against a ballot measure, or a political party. It can be construed as electioneering and you may not be admitted into the polling place.
- Know your ballot before you go vote. Obtain a sample ballot or list of candidates for your specific address.
- You will not be able to use your smartphone in the polling location so bring a paper list of your candidate selections. You may bring candidate flyers/mailers in with you as long as they are for your use only. Be discreet with flashy campaign cards or they may be considered electioneering.
- When you are given your ballot, make sure it is the correct one for you. There could be several precincts voting in the same location and mistakes do happen. Don't let them happen to you.
- If you have received the wrong ballot or if you make a mistake on your ballot and need a new one, notify the Presiding Judge **immediately**. Once you truly cast your ballot, it cannot be corrected.
- If you have any problems, your first point of contact is the Presiding Judge at the polling location. If he or she will not or cannot help you, step right outside the polling location and call your County Elections Office, if that doesn't work call your party's County Chair.
- Have the above numbers saved in your phone.
