

# **Voter Registration Resolution**

## **Wet Signature Required**

**Whereas** the RPT Platform already calls for an end to Motor Voter;

**Whereas** online or electronic voter registration must be prohibited;

**Whereas** voter registration signatures may be used to verify that a signature used to vote by mail is that of the voter and electronic signatures often are very different from actual signatures;

**Be it Resolved** that an addition should be made to plank 243 stating, "Requiring a wet signature for all voter registration applications."
